Colin Bird Chairman says: " It is some two years since the company's directors and management share option scheme expired. A new share option scheme was agreed by shareholders on the 29th of April 2016. In awarding these options the Board was cognisant of the efforts and personal motivation directed towards the Company's objectives by all members of the board and staff. The Board advises shareholders that some 4.05% of the Company's current issued capital has been reserved for the possible grant of options to high calibre staff that may be recruited to meet our planned growth. This is consistent with the Company's mid-term strategy to preserve and promote value for the Company's shareholders. "
